## Education

### Dayananda Sagar College Of Engineering

B.E in Computer Science & Engineering(IOT & Cyber Security)| CGPA: 9.71 (4<sup>th</sup>sem)

2023- 2027

Bangalore, India

## Technical Skills

**Languages:** C, C++, Python, JavaScript, Typescript

**Frontend:** HTML, CSS, React.js, Tailwind CSS

**Backend:** Node.js, Express.js,

**Developer Tools:** Git, GitHub, Postman

**Database:** MongoDB, SQL

**Cloud & Deployment:** Firebase, Vercel

## Projects

### AI ChatBot | Next.js, React, Google Gemini AI, Tailwind CSS

June 2025 – July 2025

- Developed a modern, real-time AI chatbot powered by Google's Gemini API with streaming responses and intelligent conversation capabilities
- Implemented advanced UI features including dark/light theme toggle, glassmorphism design, mobile-responsive layout, and one-click message copying with toast notifications
- Built with Next.js App Router, TypeScript, and Tailwind CSS featuring animated backgrounds, custom scrollbars, and optimized performance for seamless user experience across all devices

### Expense Tracker | React, Vite, Tailwind CSS, Authentication

July 2025 – Aug 2025

- Developed a comprehensive personal finance management platform with secure user authentication, profile photo upload, and intuitive expense categorization system
- Implemented responsive expense tracking forms with real-time balance calculations, form validation, and mobile-optimized layouts preventing input overlapping issues
- Designed a modern interface using Tailwind CSS with clean typography, custom branding, and mobile responsive design ensuring accessibility across all devices

### Victoria AI Assistant | React, Google Gemini AI, Speech Recognition, Voice Synthesis

July 2025

- Developed an advanced voice-activated AI assistant with real-time speech recognition and natural text-to-speech synthesis using female voice optimization
- Implemented intelligent command processing for website navigation, time/date queries, and contextual conversations powered by Google Gemini API
- Designed a cyberpunk-themed responsive UI with animated backgrounds, glowing effects, glassmorphism elements, and smooth state transitions for an immersive user experience

### Entertainment Hub | React, JavaScript, API Integration, Movies

July 2025

- Developed a modern entertainment discovery platform with real-time search functionality, detailed content information, and personalized watchlist management
- Implemented movie/TV show discovery features with user ratings, reviews system, and seamless API integration for comprehensive entertainment data
- Designed a sleek, responsive interface with immersive browsing experience, optimized performance, and intuitive navigation across desktop and mobile devices

### README Generator | React, TypeScript, Vite, Tailwind CSS, Supabase (Edge Function)

Aug 2025

- Built an interactive tool that converts any public GitHub repo URL into a structured, production-ready README with autogenerated sections (Features, Tech Stack, Scripts, Configuration) using repository metadata and heuristics via ReadmeGenerator
- Implemented automatic detection of languages, scripts, package manager, Docker/CI/env examples, and optional AI-assisted enrichment via a Supabase Edge Function (see project README at readme-generator/readme.md)
- Added live Markdown preview, dark/light theme toggle, copy/download actions, and adaptive UX (keyboard shortcuts, responsive layout) for fast iteration and polished developer experience

### Video Calling WebApp | Next.js, TypeScript, ZEGOCLOUD, Tailwind CSS

June 2025

- Developed a real-time video calling web application with secure video/audio communication, room creation and joining functionality using ZEGOCLOUD SDK integration
- Implemented responsive design for desktop and mobile platforms with shareable room links, high-quality communication protocols, and seamless user experience
- Designed an intuitive glassmorphism UI with Tailwind CSS featuring modern aesthetics, smooth transitions, and optimized performance for reliable video conferencing across devices

### Quiz App | HTML, CSS, JavaScript (Open Trivia DB API)

May 2025

- Developed a dynamic quiz application that fetches real-time multiple-choice questions from the Open Trivia DB API based on user-selected topic

- Implemented interactive UI with score tracking, answer validation, and feedback on correct answers when user selects incorrectly
- Designed a responsive dark-themed layout using pure CSS to ensure an engaging and accessible user experience across devices

#### Personal Portfolio Website | *Next.js, TypeScript, Tailwind CSS*

**Feb 2025**

- Designed and developed a responsive portfolio to showcase projects, technical skills, and resume, using Next.js 14 with App Router
- Implemented animated UI with Framer Motion, dynamic routing, and reusable components for a clean, smooth user experience
- Deployed on Vercel with fully responsive design, optimized SEO, and a working Contact Me form powered by EmailJS

#### StackFlow – Full Stack Q&A App | *Next.js, Appwrite, TypeScript, Tailwind CSS*

**Jan 2025**

- Built a full-stack Q&A platform inspired by Stack Overflow with user authentication, question posting, and answer submission using Appwrite backend
- Designed a clean, responsive UI with Tailwind CSS and modular components, enhancing UX with ShadCN UI and Framer Motion
- Integrated Appwrite's Auth, Database, and Storage to manage users, posts, and image uploads

#### Cloudinary SaaS Platform | *Next.js TypeScript Tailwind CSS Cloudinary API*

**Dec 2024**

- Developed a full-stack SaaS application enabling users to upload, manage, resize, and optimize images/videos, leveraging Cloudinary for cloud-based media processing with responsive previews and downloadable assets
- Implemented secure user authentication using Clerk, and stored structured metadata for assets via Prisma ORM and NeonDB, delivering robust backend functionality
- Crafted a clean, responsive UI with Tailwind CSS, and deployed seamlessly on Vercel, ensuring high performance, cross-device compatibility, and SEO optimization

#### Password Manager | *React, Tailwind CSS, JavaScript, Express.js, MongoDB*

**Dec 2024**

- Developed a full-stack app to securely store and manage website credentials with CRUD operations
- Built a responsive React frontend styled with Tailwind CSS, integrated with a RESTful Express.js API
- Connected to a local MongoDB database and implemented real-time updates with robust error handling

#### Egg Catcher Game | *Python, Tkinter*

- Developed an interactive arcade-style game where players catch falling eggs using a movable catcher controlled by keyboard inputs
- Implemented real-time collision detection, dynamic difficulty scaling, and score/lives tracking for an engaging gameplay experience
- Utilized Tkinter canvas and after() scheduling to manage smooth animations and timed events

#### Weather App | *HTML, CSS, JavaScript (OpenWeatherMap API)*

**Nov 2024**

- Built a responsive weather application that fetches real-time weather data based on user-input city using the OpenWeatherMap API
- Implemented error handling for invalid city entries and dynamic UI updates for temperature, city name, and weather description
- Styled with modern dark theme and responsive layout using pure CSS for clean and user-friendly experience

### Industry Exposure

---

#### Nokia Technology Visit

- Gained exposure to cutting-edge technologies like AI, ML, 5G, and 6G trials, alongside networking with industry professionals.

### Extracurriculars

---

#### LeetCode Problem Solver

**July 2024 – Present**

- Actively participate in solving algorithmic problems across various domains
- Regularly engage in LeetCode contests, improving problem-solving speed and efficiency.

### Achievements

---

#### Rank :

[View](#)

- [Leetcode](#) : 91,992 \*

#### Certification:

[View](#)

- Cisco Cybersecurity, JavaScript, Python
- Postman Api
- Ai Foundation and Machine Learning
